## **Drill Hole Estimator**

- **Drill holes 10 times diameter apart in an offset Pattern**
- **Drill approximately 10% deeper than final grade**
- **In Boulders drill at least 70% through the boulder**

## **Tips on Usage**

- **Keep the Product dry and as cool as possible**
- **Assure the use of cold water to mix with the product**
- **Read all instructions thoroughly before use**
- **Protect workers from contact as recommended in the safety Instructions**
- **Load the holes as quickly as possible after mixing**
